PROFESSIONAL SUMMARY

Enthusiastic Bachelor of Computer Applications (BCA) student with a strong foundation in software development, database management, and web technologies. Proven ability to build practical applications through academic and personal projects. Eager to leverage technical skills and problem-solving abilities in an entry-level IT role.

TECHNICAL SKILLS

- **Programming Languages:** Java, C, C++, JavaScript, PHP
- **Web Development:** HTML5, CSS3, React.js
- **Databases:** MySQL, Supabase
- **Tools & Platforms:** Git, GitHub, VS Code, Vercel, Linux

PROJECTS

Project 1: QR - Ordering System

Technologies: React.js, Vite, Supabase, CSS3

- Developed a full-stack QR-code-based food ordering system designed for restaurants, cafes, and bars. Built with React, Vite, and Supabase, this platform allows customers to scan a QR code at their table, browse a beautiful digital menu, and place orders directly from their phones.
- Utilized Supabase Realtime listeners to sync order statuses instantaneously between the customer's device and the restaurant's kitchen dashboard.

Project 2: C2C Ecommerce Site (Artsly)

Technologies: HTML, PHP, MySQL, CSS3, JavaScript

- Built a web-based Customer-to-Customer (C2C) e-commerce platform that connects artists and buyers. It allows artists to showcase and sell their artwork, while users can explore, search, and purchase unique creations in a secure and user-friendly environment.
- Designed a normalized MySQL database schema to handle distinct buyer and artist profiles, product listings, and order tracking while maintaining strict data integrity.

Project 3: ShopEsp

Technologies: JavaScript, HTML5, OpenWeather API

- Developed a full-stack e-commerce platform with product listing, cart, and checkout functionality.
- Integrated eSewa ePay v2 payment gateway to enable real-time digital payments.

Project 4: Intelligent Task Prioritizer

Technologies: React.js, Vite, PHP, CSS3

- Built an interactive React front-end for creating, managing, and prioritizing tasks.
- Developed PHP-based REST API backend with MySQL for persistent data storage.
- Implemented prioritization logic to rank tasks by urgency and importance.

EDUCATION

Bachelor of Computer Applications (BCA)

Mega National College/ Tribhuvan University

2023 - Present

Current Aggregate/GPA: 2.9

Higher Secondary Education (+2 in Management)

BlueBird Higher Secondary School

Graduation Year: 2022

Final GPA: 2.86
